# MAINTAINING YOUR POWER BREEZER

## -PREVENTATIVE MAINTENANCE ON WATER TANK -

The general rule of thumb is to treat it like a water cooler. Letting the water run out and air dry every once in a while is a good thing. Open the drain and take off the lid. If you let it dry out once/week or so overnight, you should be good.

To check for any issues, rub your hand on the inside of the tank. If it is beginning to feel slippery/slimy, then it is important to drain the unit put a few drops of liquid soap and a brush and clean it out. Rinse with a hose, open the drain at the bottom and leave the lid off to air dry. At that point, you are good to go again.

If it ever looks like any mildew has developed, one can put a couple of drops of bleach and then flush it through the system (run the Power Breezer). Flush it out with clean water, and then you are ready again. We have purposely made the unit very open and accessible so it is easy to clean so you can get it back in action.

### Head/Motor

If you see a collection of dust or debris in the head of the unit, one can take a hose and a cloth and simply spray out the dust or dirt that has collected there. Spray towards the front of the fan head, not the back. Front side is shown below.

# MOISTURE CONTROL

**Here is the process to achieve minimal moisture:**

Turn the valve completely off (6:00)

Press the blue button to start the atomizer. Let it spin for about 15 seconds to achieve the proper speed.

Open the valve slightly, around 5:00 should be fine. If one's glasses fog up at 6 feet away, the moisture setting is too high and needs to be lowered.

You can set the the moisture higher if you are working further away, depending on preference.

# Power Breezer Limited Warranty

For two (2) years from date of shipment to the first purchaser, Maxify Solutions, Inc. ("Manufacturer") warrants the fan, fan blades, fan motor, air straighteners and the polyethylene exterior of the Power Breezer unit to be free from defects in materials or workmanship. Those components found, upon examination by factory-authorized personnel, to be defective in material or workmanship will be repaired or replaced with new or remanufactured parts at Manufacturer's or authorized dealer's option and without charge. All other Power Breezer components have a one (1) year warranty from the shipment date against defects in materials or workmanship.

Transportation charges on parts submitted for replacement or repair under this warranty shall be borne by the purchaser. Any and all repairs and replacements must be performed by Manufacturer or an authorized Power Breezer dealer or representative. Warranty claims must be made as soon as reasonably possible after a defect is discovered, but before the end of the warranty coverage on the particular part. When a warranty repair or replacement is needed, the Power Breezer must be brought to the Manufacturer's or authorized dealer's place of business during normal business hours. A reasonable time must be allowed for the performance of repairs or replacements.

THESE WARRANTIES ARE THE ONLY EXPRESS WARRANTIES BY MANUFACTURER ON THE POWER BREEZER. THESE WARRANTIES ARE LIMITED IN DURATION TO THE TIME PERIOD(S) OF THESE WRITTEN WARRANTIES. THESE WARRANTIES ARE IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES, WHETHER EXPRESS OR IMPLIED. THESE WARRANTIES DO NOT COVER:

- (1) NORMAL DETERIORATION OR FADING OF COLOR, COSMETIC OR APPEARANCE ITEMS;
- (2) DAMAGE OR MALFUNCTION DUE TO IMPROPER REPAIR DUE TO ANY UNAUTHORIZED ALTERATION OR MODIFICATION MADE TO THE POWER BREEZER;
- (3) DAMAGE OR MALFUNCTION DUE TO ABUSE, NEGLIGENCE, ACCIDENT OR FIRE;
- (4) DAMAGE CAUSED BY A NON-COVERED, UNAUTHORIZED PART; AND
- (5) FAILURE TO FOLLOW MANUFACTURER'S CLEANING AND MAINTENANCE GUIDELINES.

MANUFACTURER AND ITS AUTHORIZED DEALERS AND DISTRIBUTORS SHALL NOT BE LIABLE FOR ANY LOSS OF USE OF THE POWER BREEZER, FOR ANY ALTERNATE EQUIPMENT, FOR ANY DAMAGE TO GOODS, COMMERCIAL LOSS, LOSS OF TIME OR INCONVENIENCE, OR FOR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES.
